**Westin Builds Engineering Team in California;  
Adds Michael Johnson as Engineering Principal**

RANCHO CORDOVA, CALIF. – Westin has announced that Michael Johnson, P.E. has joined the firm as Regional Engineering Principal, responsible for Business Development and Project Delivery.

Mr. Johnson has more than 23 years of experience in the application of control systems and other information technologies to water and sanitation utilities. Throughout his career, Michael has worked on projects ranging from technology to management consulting in order to aid agencies in developing enterprise solutions that improve operations and performance. Johnson is skilled in needs analysis, planning, communication and leadership. Michael is a registered Professional Engineer (PE) in California, Nevada, Arizona and Colorado.

Michael has led projects that span many aspects of utility business and operational improvement. His experience is based in SCADA and control systems, having been directly engaged in planning, design, and implementation projects. In addition, he has led projects related to workforce and organizational development, asset and maintenance management systems, and laboratory systems.

Westin helps water utilities improve performance in plant operations, business operations, knowledge management, customer service, and asset and maintenance management. Westin's suite of consulting and engineering services addresses utilities' needs throughout the entire life cycle of their technology. Westin applies practical experience gained in the water industry help clients attain their business and technology goals. Westin has delivered solutions to our customers throughout the United States since 1981. Learn more at [www.we-inc.com](http://www.we-inc.com).
