J-D Bamford, PE, Joins Westin's Engineering Team

RANCHO CORDOVA, CALIF. – Westin Engineering, Inc. has added John-David (J-D) Bamford, PE, as a Senior Engineer based in Westin's Glendale office.

"We are extremely pleased to add a technical resource of J-D's caliber to our team of control systems engineers," said Doug Spiers, Westin's Vice President, West Region.

Mr. Bamford brings more than 14 years of experience as an engineer specializing in serving industrial and municipal water and wastewater clients. He has worked on control system projects throughout the US as well as Russia, Asia, Brazil and Nigeria. His experience spans mechanical engineering, instrumentation and controls and SCADA disciplines.

Westin helps water utilities improve performance in treatment, business operations, knowledge management, customer service, maintenance, and asset management. Westin's suite of services address utilities needs throughout the entire life cycle of their technology – from planning to design, implementation, integration and system maintenance. Westin applies practical experience in business, security, SCADA, telecommunications, and information technology to help clients attain their goals. Westin has delivered solutions to our customers throughout the United States since 1981. See more information at www.we-inc.com.
